15 million Americans are on GLP-1. The food they need doesn't exist yet. That's the entire opportunity.

Ozempic, Wegovy, Mounjaro, and Zepbound have triggered the largest dietary shift in a generation — and 74% of users suffer side effects (constipation, dehydration, muscle loss) that no mainstream brand systematically addresses. **Matchbox 7** is building the first product line designed end-to-end for that body, anchored on **Monch**, a proprietary water-soluble fibre with 3.3× the gut bioavailability of standard fibre, exclusively licensed for the Americas.

15M+
Active US GLP-1 users today, growing 2–3× with patent cliff

74%
Suffer GI side effects no purpose-built product addresses

$15.8B
US protein bar + electrolyte TAM, 7–10% CAGR

$58B→$133B
Global GLP-1 drug market, 2026 → 2035

THE PRODUCTS

01
YEAR 1 FLAGSHIP

Monch Protein + Fibre Bar

Indulgent chocolate-brownie bar with candy-like taste, developed by the team behind Muscle Milk.

- **15g** protein (whey + collagen + soy)
- **8–10g** Monch water-soluble fibre
- Integrated electrolytes (Na / K / Mg)
- **<3g** sugar · 45g serving
- No artificial flavours or sweeteners

$3.49 retail · **$2.49** wholesale

02
YEAR 1 COMPANION

Monch Electrolyte Packet

Bundled with the bar — solves dehydration and GI distress, the #2 GLP-1 side effect. Attach-rate driver.

- Monch water-soluble fibre base
- Full electrolyte profile (Na / K / Mg)
- Mixes into any cold beverage
- Three blends: Fibre / Enzyme / Electrolyte
- Existing product, proven manufacturing

$1.49 retail · **$0.99** wholesale

03
H1 YEAR 2

Monch Functional Drink

Ready-to-drink format leveraging Monch's water solubility — ~5× stronger unit economics than the bar.

- Water-soluble Monch fibre delivery
- Electrolyte-fortified
- On-the-go consumption format
- Formulation in progress with Flavor Insights
- Margin-expansion SKU for Y2 scale

RTD · pricing TBD

A $58B drug class scaling to $133B by 2035, a $15.8B US category with no GLP-1 specialist, and an 18–24 month head start while major CPG still discusses companion products at conferences.

INGREDIENT IP
BioLumen
Sole producer of Monch fibre. Exclusive Americas licence to Matchbox 7.

PEDIGREE
Mike Pickett
Muscle Milk founder; CytoSport $0→$200M; $450M Hormel exit (2014).

FORMULATION
Flavor Insights
111K sq ft Benicia, CA facility — the team behind the Muscle Milk taste breakthrough.

CO-PACK
Mr. Bill's Formula Fusion
US bar formulation & manufacturing. Development agreement signed April 2026.
